Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** provincia de Gerona / Provincia de Girona
Town: Vall de Bas

Difficulty: a little difficult	**Grading:** v4 a2 II	**Total time:**
Approachtime:	**Tourtime:** 3h	**Returntime:**
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 800m	**Highest rapell:** 50m	**Amount rapells:** 8
Transport:	**Rock type:**	**Drainage area:** km²
Season: March - May	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
And torrent del Puig, without being a descent of great magnitude, it is the longest in the area. If we take it after rains we can enjoy its two beautiful waterfalls, one of 50 just starting and another of 40 after joining Grau.
Recently equipped "June 2023 under the initiative El Parabolt Pendiente".

Hydrology: (machine translated)
Impossible on the vertical, then several trails cross

Access: (machine translated)
Location Val d'en Bas
We must be located in Falgars d'en Bas.
From San Esteve d'en Bas on the C153 southbound, we turn off at Els Hortalets, cross the village and go southbound on the local road. After 500m we have the detour to the right to La Coromina/Falgars. We will go up to Falgars.
If we go from the south from Rupit by the C153, in the pk 34 we have a curve in which the detour to Falgars comes out.
Once in Falgars we go down the stream of Falgars and continue, we pass the Mas de Pujols and the next stream is ours, a little further on there is a track that crosses the road and to the left leads to the Morral del Grau. We park here.
If we have two cars, we can leave the other one at the exit of Els Hortalets near the Torrent del Puig.

Approach: (machine translated)
Val d'en Bas ravines
From the Morral del Grau we have Bertrans on the left and Sallent del Grau on the right.

Tour: (machine translated)
Vertical descent with two long rappels, especially the first one, and then a typical progression in terraces along the stream.

Return: (machine translated)
After the R5 we can go halfway down the slope to the right in search of the path that goes along the rope to the top.
Another option is to follow the riverbed until we find a path that goes down the Torrent to the road (option two cars).

Coordinates:
Canyon Start 42.0772 2.4511
