| <b>Access:</b> (machine translated)<br>We start in Valderrobres on the bridge over the Río Matarraña. First we drive west on the A-231 for about 500 m in the direction of Horta de San Joan, then we turn off at the large traffic circle onto the A-2412 and now drive south. After 6.2 km we arrive at Beceite. Here we follow the signs "La Pesquera" or the Camino of the same name and arrive on a dirt road in the valley of the Río Ulldemó.<br>After 3.1 km (from the center of Beceite) we arrive directly at the river at the signpost "PR-TE 151 Peñagalera" to a small parking bay, where we park our car. |                                    |                                       |
| <b>Approach:</b> (machine translated)<br>We follow the signposts through the river to the northern bank and follow the well-marked path uphill. After about 50 minutes we come to a first saddle. We cross a rock bar and come to another saddle. We continue to follow the yellow-white or yellow markings. We now walk along the orographic right edge of a wide hollow. At a suitable point we descend on sight into this barranco.<br>Cf: * <a href="http://www.wikiloc.com/wikiloc/view.do?id=11363047">http://www.wikiloc.com/wikiloc/view.do?id=11363047</a>   |                                    |                                       |
| <b>Tour:</b> (machine translated)<br>We come to the first 3 rappels, then a side barranco comes from the left. The route now descends in gulps until the next rappel, now already in a narrow barranco. This is followed by a run in the canyon, which is now open again, a few more rappels and then the highlight.<br>We first abseil 12 m into the huge cauldron below us to a vertical belay on a ledge. This is followed by the 45 m rappel in the "Gran Circo". After 2 more rappels we are at the bottom.  |                                    |                                       |
| <b>Return:</b> (machine translated)<br>We walk downstream, enter the streambed of the Río Ulldemó and walk in it until we reach the car.  |                                    |                                       |
