Done in combination with the upper part with a team of 7 people. One of our favorites in our Peloponnese trip. Anchors were excellent. If you are a regular Joe with a team that wants to enjoy the trip without rushing for a new speed record, you will need almost 6h to do both parts, as there are almost 40 rappels with 400 meters of descent.

Continuation of the upper part, same style, slightly higher rappels. The "long downclimbing part" at the end wasn't very long at all. Unfortunately it was filled with a lot of pipes though. Upper and lower combined in just under 3 hours with 2 people, though we were quite fast and efficient.

Great canyon, if you're not disgusted by the thousand millipedes. (machine translated)

Ideal conditions. Hooks ok. Tiring the long run out with constant climbing down after leaving the canyon. (machine translated)
