<b>Summary:</b> (machine translated) Short but sporty attractive rappel canyon		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We leave the A8 (Lucerne-Interlaken) via the exit Sarnen-Nord. Via Kerns we drive into Melchtal. We drive through the village of the same name and turn half-right about 550m after the village center. After another 300m we come to a hairpin bend to the right. In the bend we turn south and quickly come to a picnic area. Here we can park our car.		
<b>Approach:</b> (machine translated) We go back to the hairpin bend and then left, down to the bridge over the Melcha. On the other side we take the path to the waterfalls. It moves away from the stream and up. We come to a meadow and a house here we move downhill to the right at the edge of the meadow and continue our path at the north end of the meadow at the same level into the forest. We climb down to the canyon rim and then rope the last (about 15m) from a tree into the canyon.		
<b>Tour:</b> (machine translated) 6-8 rappel, repeatedly rappelling over several steps.  There are no emergency exits. It is possible to get out of the water in one or two places. One place could be used for emergency exit on the right side. But here you would have to drill two anchors for a rope traverse.		
<b>Return:</b> (machine translated) At the canyon exit, turn right out onto the approach trail and to the car.

## Reports:

2024-08-31 | Juan Montesinos | ★★☆☆ | 📖★ | ⚓★ | 🌊 Low | 🍏 Completed

Normal-low flow (see reference photo). Several anchors were loose and have been readjusted. New anchor added at R5. I recommend carrying at least one wrench to tighten the anchors. There are quite a few logs and branches. Otherwise all good. (machine translated)

2023-06-08 | Daniel Sturm | ★★☆☆ | 📖★★ | ⚓★★ | 🌊 Normal | 🍏 Completed

Pure abseil canyon, quite short. Unexpectedly cut and scenic. Towards the end pathless approach, always stay below the pasture. Currently, some cloying. Hooks all okay, one a bit loose. Maximum 1 hook. (machine translated)
