Summary: (machine translated)
Sharp edge at highest rappel point; gneiss rock; beautiful canyon but partly very slippery and shady; catchment area 6.1km²; rappel often in the water course.

Hydrology:

Access: (machine translated)
Rif --> A10 Villach --> Mölltal --> Obervellach (between Obervellach and Stallhofen) ri. Winklern --> at the main road right to the campsite (Fort Vancouver) --> under the main road --> over the bridge and left to the campsite --> park here.

Approach: (machine translated)
From the campsite (Fort Vancouver) left to the large signpost --> here the path up towards Polinikfall --> after approx. 500m at the bridge left steeply up on the path --> always in sight of the deep canyon --> continue until you reach an old path --> keep right until you reach the entry at approx. 1120Hm.

Tour: (machine translated)
The canyon offers a very varied program of rappels from start to finish --> belays are in good condition --> many short rappels in the water --> mostly slippery even at the belay --> little sunlight --> problematic at the narrow points when there is a lot of water (check the water level at the exit on the high wooden bridge) --> the highest rappel point comes almost at the end and is usually outside the water flow (!! Sharp edge) --> to master short rappels more effectively, you should not do without an additional rope.!!! sharp edges) --> in order to master the short rappels more effectively, an additional shorter rope should not be dispensed with.

Return: (machine translated)
After the last large and the 2 small rappels, you leave the canyon on the left onto a hiking trail, then (right) again through the stream and past the wooden bridge until you reach the access path back to the campsite/parking lot.
