Create: 2024-06-05 22:47:05	**Update:** 2026-03-14 22:12:15	**Print:** 2026-11-10 02:11:57

Country: España / Spain **Region:** País Vasco / Euskal Autonomia Erkidegoa **Subregion:** Álava / Araba / Alava
Town: Urcabustaiz

Difficulty: difficult	**Grading:** v5 a2 IV	**Total time:** 1h5
Approachtime: 5min	**Tourtime:** 30min	**Returntime:** 30min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 100m	**Highest rapell:** 91m	**Amount rapells:** 1
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 3 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Simply descend the 90m of the impressive Gujuli/Goiuri waterfall.
It is not equipped. You can do R100 from the tree by equipping in fixed.

Hydrology: (machine translated)
Once the first rappel is started, there is no turning back.

Access: (machine translated)
From Vitoria towards Orduña on the A2521, just before reaching Gujuli/Goiuri we have on the right the parking lot of the viewpoint of the waterfall. We parked

Approach: (machine translated)
We leave to follow the train tracks, after 100m by the cheese factory we cross the tracks and follow it to the bridge.

Tour: (machine translated)
The first or only installation is mounted on the left in a tree that would allow us to make the descent with 100m of rope, in which case it is necessary to foresee to put a sack or anti-scratch at the exit (delicate rubbing). If we do not want to put so much friction on the rope, about 8m below we have a ledge with an installation of 3spits without plate that would allow us to make a cleaner R90.

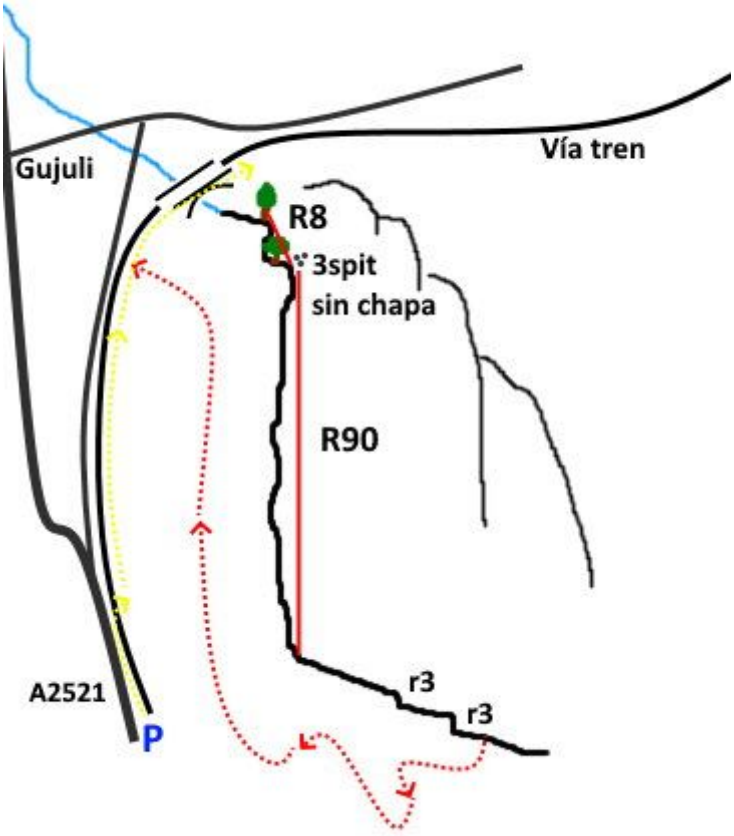

Return: (machine translated)
After the second 3m cliff we will see a small zigzagging path on our right. It is a hard climb and if the terrain is wet it is very slippery. It will leave us in the upper meadow, we will go towards the tracks to retrace the access path.

Coordinates:
Canyon Start 42.9761 -2.9117
