Summary: (machine translated)
Forest gorge, ending in a dark gorge

Hydrology:

Access: (machine translated)
Leave the Italian A 10 (Genoa - Nice) at the Arma di Taggia exit (about halfway between Imperia and Ventmiglia). Then take the SP 548 up the valley of the Argentina towards Triora. After 8 km we pass through Badalucco, 12 km after that, just before the village of Molini di Triora, we turn left onto the SP 65 towards Colla Langan. We cross the Argentina and 2 km after the turnoff we reach the first leftward haipin bend, where we park the car.

Approach: (machine translated)
From the road bend we take the footpath that leads in a northerly direction over the Argentina slightly ascending to the dilapidated (2012) footbridge over the Grognardo. Get on here.

Tour: (machine translated)
At the beginning smaller rappel with slides, then the attractive dark gorge

Return: (machine translated)
After the Grognardo flows into a large pool of the Argentina (known as Lago Degno), at its lower exit, follow the tracks on the right up to the approach path and along this back to the car.
Alternatively, you can walk down the Argentina from the old stone arch bridge, see Argentina for more details.

Automatisch importiert von Descente-Canyon.com für Canyon Grognardo Descendu avant l'Argentina. Court mais joli. Approche : Parking au dernier lacet avant Molini di Triora. Chemin qui part dans l'épingle, peinture blanche et bleue à suivre 20 min jusqu'à une passerelle en bois où débute la descente du Grognardo. Sortie à la main courante RG avant le Lago Degno. Cela permet de rejoindre en 15 min le Ponte di Mauta où commence le canyon de l'Argentina. Les deux canyons vont vraiment de paire. Descendu avec Titi l'anguille.
