Country: España / Spain **Region:** Aragón **Subregion:** Huesca **Town:** Piedrafita de Jaca		
Difficulty: a little difficult	**Grading:** v4 a3 II	**Total time:** 4h15
Approachtime: 1h5	**Tourtime:** 3h	**Returntime:** 10min
Altitude entry: 1600m	**Altitude exit:** 1320m	**Delta Altitude:** 280m
Canyon length: 700m	**Highest rapell:** 42m	**Amount rapells:** 12
Transport: on Foot	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** South	**Best Time:**
Rating: ☆ 3.3 (4)	**Info:** ★ 3 (1)	**Belay:** ★ 2.5 (2)

Specialities:

Gear:
Ropes: 2x50m

Summary: (machine translated)
rappel canyon, in the first part mostly dry, last third after karst spring with water flow

Hydrology:

Access: (machine translated)
From Huesca we drive north on the A-23/N-330 to Sabinanigo, from there we continue on the N-260 to Biescas (68.5 km to this point). Continue for another 12.2 km towards Col de Portalet and turn right onto the A-2606. After 3.3 km we pass the village of Panticosa and after a total of 3.6 km (from the A-136) we come to a steep track branching off to the left uphill. It first bends to the left, then to the right and now runs fairly horizontally to the NE. We come to the Bco. del Monde and park our car here, where a trail begins.

Approach: (machine translated)
It goes orographic up the right bank of the mentioned Bco. At about 1420 m altitude the path bends to the NE. After possible difficulties with finding the path, we come to the Forronias at an underground water drainage (entry). See:
* https://www.wikiloc.com/canyoneering-trails/aproximacion-forronias-14037259

Tour: (machine translated)
Approx. 15 rappels; first 7 dry rappels, then to the right a spring that cannot aliment the streambed in summer. After another 4 rappels, the descent then becomes more aquatic, as on the right a karst spring presses its water from the rock face. From here 3 more rappels and we come to the final chord, the overhanging 42 m - rappel. Then down in the scree streambed until we can exit to the right onto the slope.

Return: (machine translated)
On the slope on the right we come to the car.

Coordinates:
Canyon Start 42.7366 -0.2771
Canyon End 42.7310 -0.2741
Parking Entry and Exit 42.7289 0.2794

Automatisch importiert von Descente-Canyon.com für Canyon Forronías Filet d'eau sur le départ puis plus rien jusqu'à la première résurgence. Avec ce débit on se mouille uniquement dans la vasque intermédiaire de l'avant dernier obstacle. Magnifique panorama. A faire plutôt matin, voire tout début d'aprèm pour avoir le soleil tout le long. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21502/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Forronías We did the canyon after a night with heavy storm and rain. The canyon started with a little bit of water but the water dissapeared after a few rapels only to come back right before the spring. After the spring we had a nice waterflow. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21502/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Forronías Le début du canyon etait sec dès le départ mais les premières vasques pas encore croupies. Lorsque l'eau revient, on est ravie de mettre la veste car l'eau est froide mais les ancrages sont positionnees principalement en dehors des cascades. La descente en est facilitée! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21502/observations.html)
