Specialities:

Gear:

Summary: (machine translated)
Entertaining canyon with rather precarious facilities as far as we know.

Hydrology: (machine translated)
Bridge in ruins at the 2nd rappel with path to the left to go up to the village.

Access: (machine translated)
We must reach the village of Lourizela (Couto de Esteves).
From Oliveira de Frades on the N227 towards São João da Serra.
Follow the N227 to Lameiras. Turn right to Couto de Esteves on the M569 and after 200m turn left to Lourizela.
If we have two cars, we will leave the access car at the bridge between Lourizela and Couto.
The return car will be left on the road that goes down to the reservoir at the end.

Approach: (machine translated)
On the back side of the bridge, a trail leads down to the left bank of the river.

Tour: (machine translated)
Interesting descent, although hampered by the poor condition of the facilities.

Return: (machine translated)
At the end of the river we have a footbridge that crosses it and takes us to the track where we have parked. If we have the car on the bridge we will have to climb up to it.
