Summary: (machine translated)
Simple torrent that we will generally find dry, the adjoining lands are private so please avoid leaving the trails and leave everything in the best possible condition.

Hydrology: (machine translated)
The environment is too dense

Access: (machine translated)
We will take the C17 to Figaró.
Exit and continue along Carrer de Ribes to the bridge over the freeway (Pont de Montmany), where we turn left.
After crossing the bridge we reach the tracks and the Montmany signposts on the left.
We will follow this road for a few kilometers until we find in a left curve, the access to the tennis courts, we will continue and two left curves later we will have a small esplanade on the left where to park, right next to the Torrent de Rovira.

Approach: (machine translated)
How to get to Montmany
We will continue along the road until passing the Mas de l'Ullà, where it becomes a track, makes a sharp right turn and then another left leaving Sant Pau de Montmany on the right. At the next right turn there is a small path on the left that leads down to the stream.

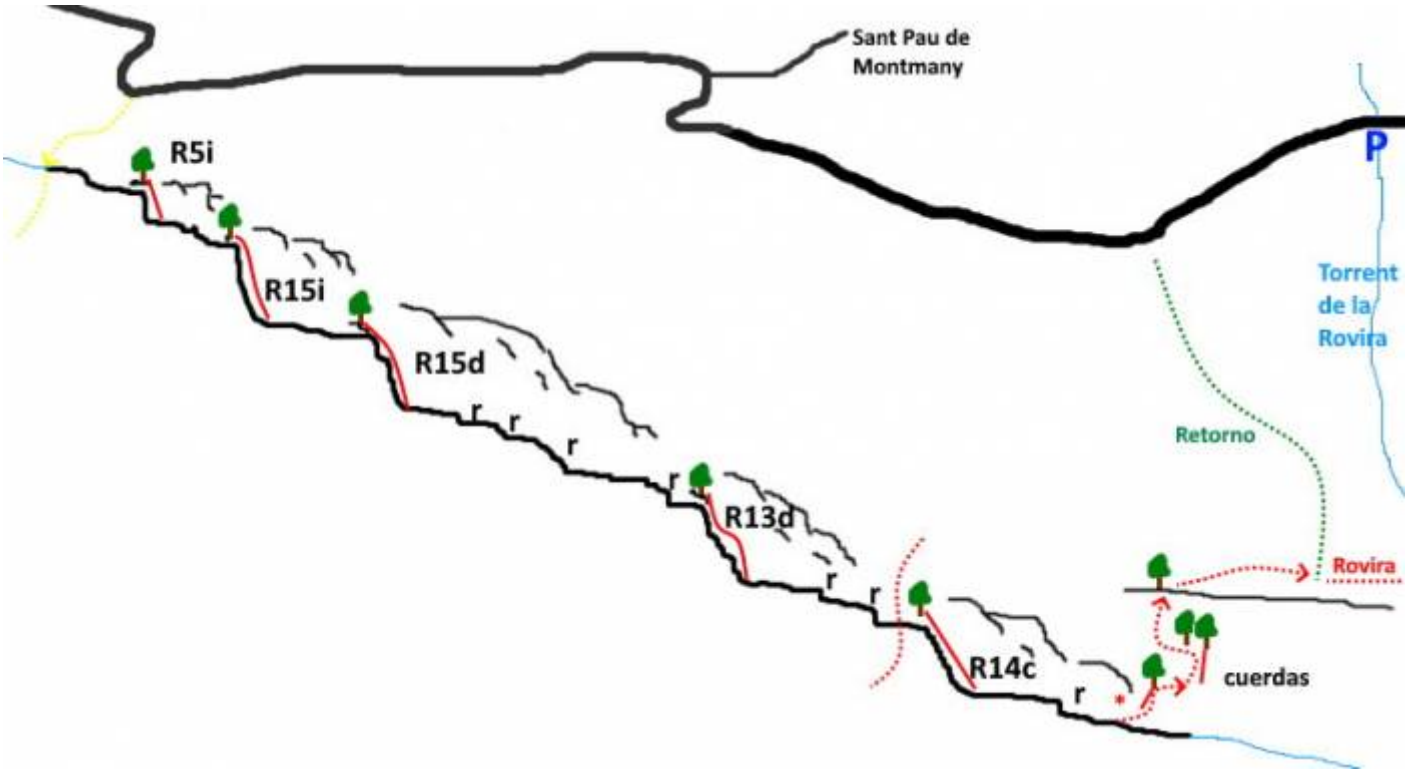

Tour: (machine translated)
Simple with only 5 rappels in natural.

Return: (machine translated)
After the last rappel there is a small cliff and on the left wall we will see a red mark to take a small ascending path that goes up with the help of ropes. Once at the top we take to the right, soon we will see some green marks that take us up to the road. If we want to combine the descent with the Torrent de Rovira we will continue straight ahead by the red marks.
