Specialities:

Gear:

Summary: (machine translated)
It really is a nice descent equipped by the ridge of Pont Foradat, we will have some climbing, handrails, very long rappels and stunning views.
Regulation of the Parc Natural del Port:

Hydrology: (machine translated)
Yes, at the junction with the trail

Access: (machine translated)
We must be located in La Senia
We will have to go from La Senia by the CV105 towards Fredes, when crossing the bridge of the reservoir of Ulldecona, we will see a track on the right by which we will go up with the car. After passing the tail of the reservoir we will have a fork, on the right the Bco de Fou. The track crosses several times before reaching a sharp right curve, a few meters before we park. It is about 7 kms from the dam of the reservoir.

Approach: (machine translated)
We will go up the path of Pont Foradat, almost at the top, after the Z's we will leave the path to go straight ahead to surround the mass on the north side. Once there we will see the initial climb and handrails.

Tour: (machine translated)
It is an equipped descent
In 2018 the last rappel (the 54m) was split and can be done with ropes of 43m+15m approx.

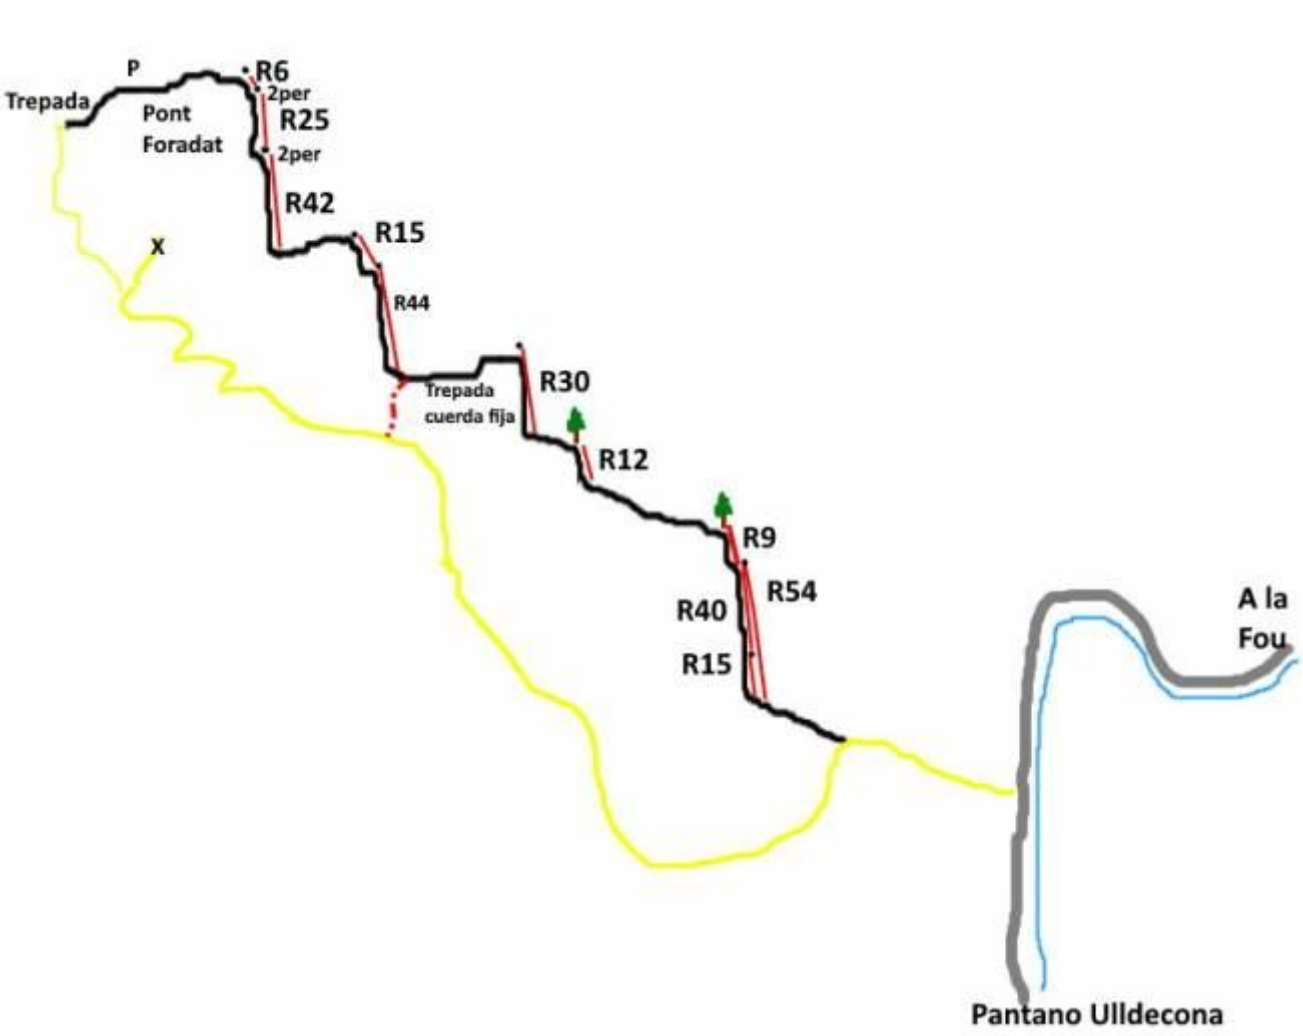

Return: (machine translated)
We will exit to the right almost without path to take the uphill path shortly after.
