Summary: (machine translated)
Simple canyon of initiation with short accesses and returns. It has installation of ferrata, which will avoid us to get into the marmitas if they have water and many of the rappels are destrepables.

Hydrology:
Sí

Access: (machine translated)
On the A7 we will leave IBI, once in the town, we will look for the Av Juan Carlos I that crosses it from east to west. Towards the east exit, on the avenue there is a Repsol gas station, from here there is a detour to the right to Banyeres. Follow this street (Las Eras) for 200m until the detour to the right to Banyeres. Follow this street until you leave Ibi on the CV801.
Just in the pk 1 we have a street on the right by which we get, we take the first right and park here.

Approach: (machine translated)
We will go straight ahead on the path that goes up the slope, about 600m later we will see a large milestone, at which point we must leave the trail and go right on a path a little loser to the head of the ravine.

Tour: (machine translated)
It is a very simple canyon/ferrata, ideal for beginners.

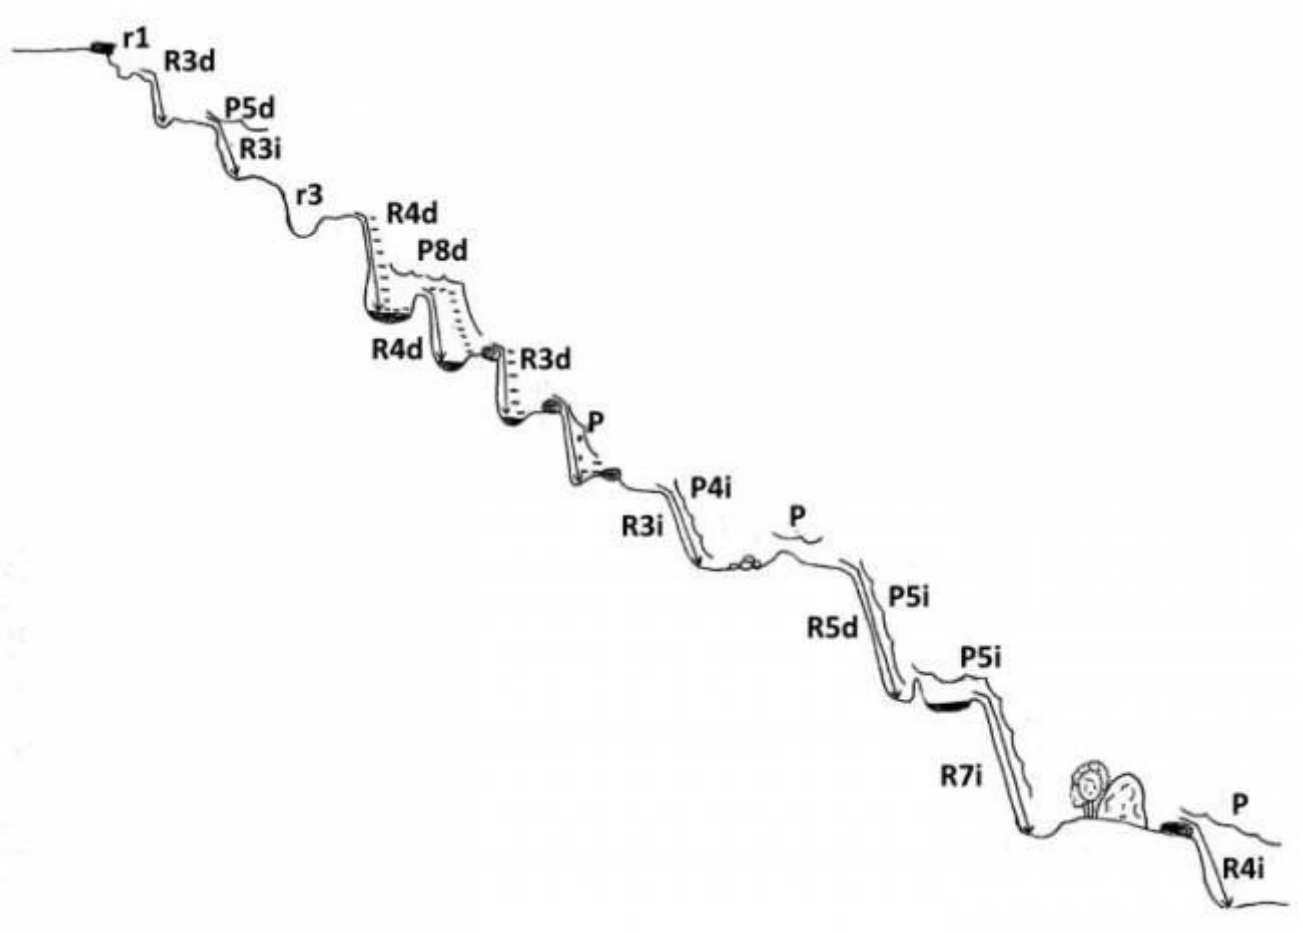

Return: (machine translated)
After the last rappel we will see a path on the right that leads us to the parking lot.
