Country: España / Spain **Region:** Las Palmas **Subregion:** **Town:** Tejeda		
Difficulty: difficult	**Grading:** v5 a1 ?	**Total time:** 3h40
Approachtime: 30min	**Tourtime:** 3h	**Returntime:** 10min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 1500m	**Highest rapell:** 60m	**Amount rapells:** 13
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
One of the classics of Gran Canaria in the Natural Monument of the Riscos de Tirajana, with water is spectacular and without it does not detract. But be very careful with heavy rains!
After rains we will be able to accede to the riverbed from almost the head and to enjoy its multiple initial pools, in case of not having rained it is better to avoid all this zone of stagnant waters and to accede to the height of the bend, when it begins to be boxed in.

Hydrology:
No

Access: (machine translated)
Location of the bcos Negro, Meca, Perro, Culogalina, Quebrada and Magaz.
We will need two vehicles, the return vehicle will be left on the GC60, at pk 21.3 we have a sharp bend over the Tirajana river. Here we have place to park.
Accesses bcos Negro, Meca, Perro, Culogalina
With the access vehicle we will go to Ayacata, to the pk 15, to locate the detour to the right by the GC600 to Roque Nublo, just in the pk 9 we have a place where to park.

Approach: (machine translated)
Accesses bcos Negro, Meca, Perro, Culogalina
By the path that goes south, to the degollada de los Hornos.
We will follow the path to the south with our ravine to the left, if it has rained and we see that it has water we can enter here and enjoy the pools, if not we will continue about 500m more to a bend in the ravine, we must access just before that bend.

Tour:
Ver topo

Return: (machine translated)
We will follow the riverbed until we reach the road.

Coordinates:
Canyon Start 27.9599 -15.5895
