Country: España / Spain **Region:** Valenciana, Comunidad / Comunitat Valenciana **Subregion:** Castellón
Town: Viver

Difficulty: not as difficult	**Grading:** v3 a1 II	**Total time:** 2h40
Approachtime: 35min	**Tourtime:** 2h	**Returntime:** 5min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 200m	**Highest rapell:** 28m	**Amount rapells:** 6
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 4 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry ravine except after heavy rains.

Hydrology:

Access: (machine translated)
To get to Viver we will take the A23 until exit 42 or 47. Once in the village we take the CV2352 looking for the detour to the left to the Villa de Viver campsite. When we get there, next to the river Palencia, we go around it on the left along a track that will lead us to the river bed. We park.
The access car from the CV2352 we will follow two kilometers, until the motocross circuit that stays on the left. We take this track that leads us to the cuts on the river Palencia and the ravine of the Chana. We park here.

Approach: (machine translated)
From the car below we will cross the river and following the marks we will arrive at a wooden sign PR63.2, we will follow it up the ravine by a little marked path with the ravine always on the right. At some point we will see a block embedded in the bed with the first rappel, we go down to it.
If we access from above we only have to go down to the riverbed.

Tour: (machine translated)
A first rappel that can be guided to save the trap pit. You can get out of the pit from one side.
Then another rappel and we get into the waterfall with its 4 rappels, the last one with the installation in a cantilever (no more than 2 people!!!).
The last rappel in ramp could be avoided, they are about 28m very slippery so it is better to insure.

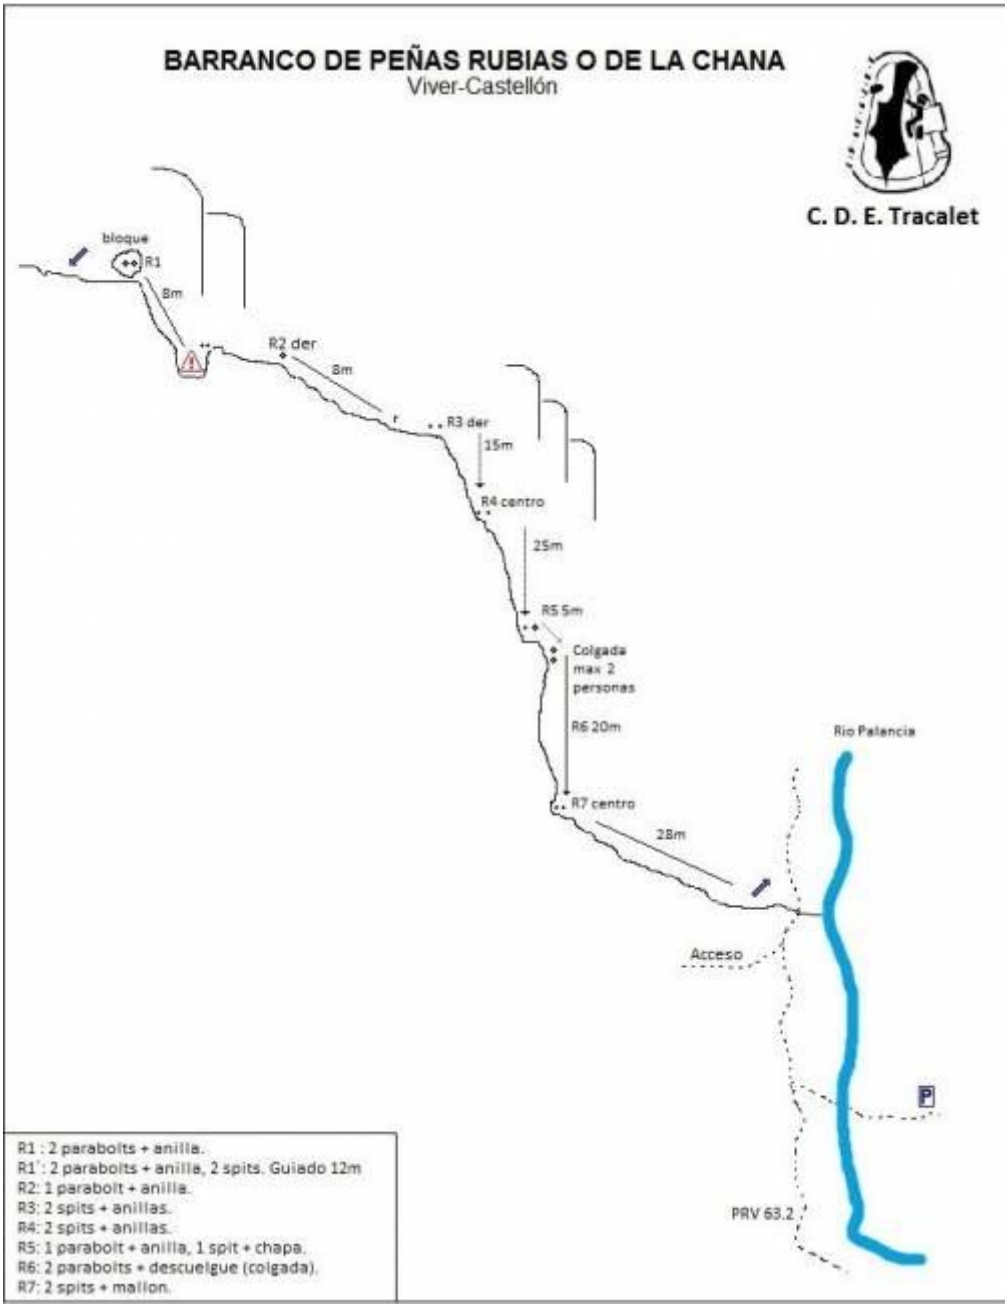

Return: (machine translated)
You reach the path of the wooden sign

Coordinates:
Canyon Start 39.9159 -0.6225
Unknown 39.9141 -0.6238
