§ Proscription,

Gear:
Ropes: 2x25m

Summary: (machine translated)
Rappel canyon, south-facing
No access (anchors removed) - apparently because part of it is in the national park

Hydrology:

Access: (machine translated)
From Motril on the N 323 in the direction of Granada. Turn right before the bridge, then immediately left again after the bridge in the direction of Orgiva and 'Las Alpujarras'. Approx. 10 km further on, after a short tunnel, turn left towards Orgiva, through the town center and at the end of the town turn right towards Pampaneira - Capileira. From Capileira, continue on the road leading up to Sierra Nevada above Poqueira. At the exit of Capileira, set the trip odometer to zero. Exactly at km 4, a dirt road leads off to the right at a left-hand bend. Continue on this road for 2.5 km until you reach a bridge over the Barranco Bermejo. We can park the car at the bridge, but it makes sense to continue for a good 100 m and then turn right at an acute angle to the "Area Recreativa Pórtugos", a picnic area with a fountain.

Approach: (machine translated)
From the picnic area, we head back along the slope towards the bridge. After just a few meters on the main track, we turn off onto a side track to the right (north). We follow this uphill to a small house (10 min.). Pass the house on the left and follow the indistinct tracks towards the canyon and then always uphill on the left bank to the entry point. There are several options here: Either directly above the narrow section or after 45 minutes at the crossing water pipe at about 1880 m (according to the Internet sites) or even further up after 1.5 hours at about 2120 m, see Gomez/Tejero.

Tour: (machine translated)
The Jabali can be rewardingly continued in the narrows of the Bermejo (Tajo de Cortes), see description Bermejo.

Return: (machine translated)
Exit at the road bridge on the left up to the slope, unless you continue along the Bermejo (Tajo del Cortes).

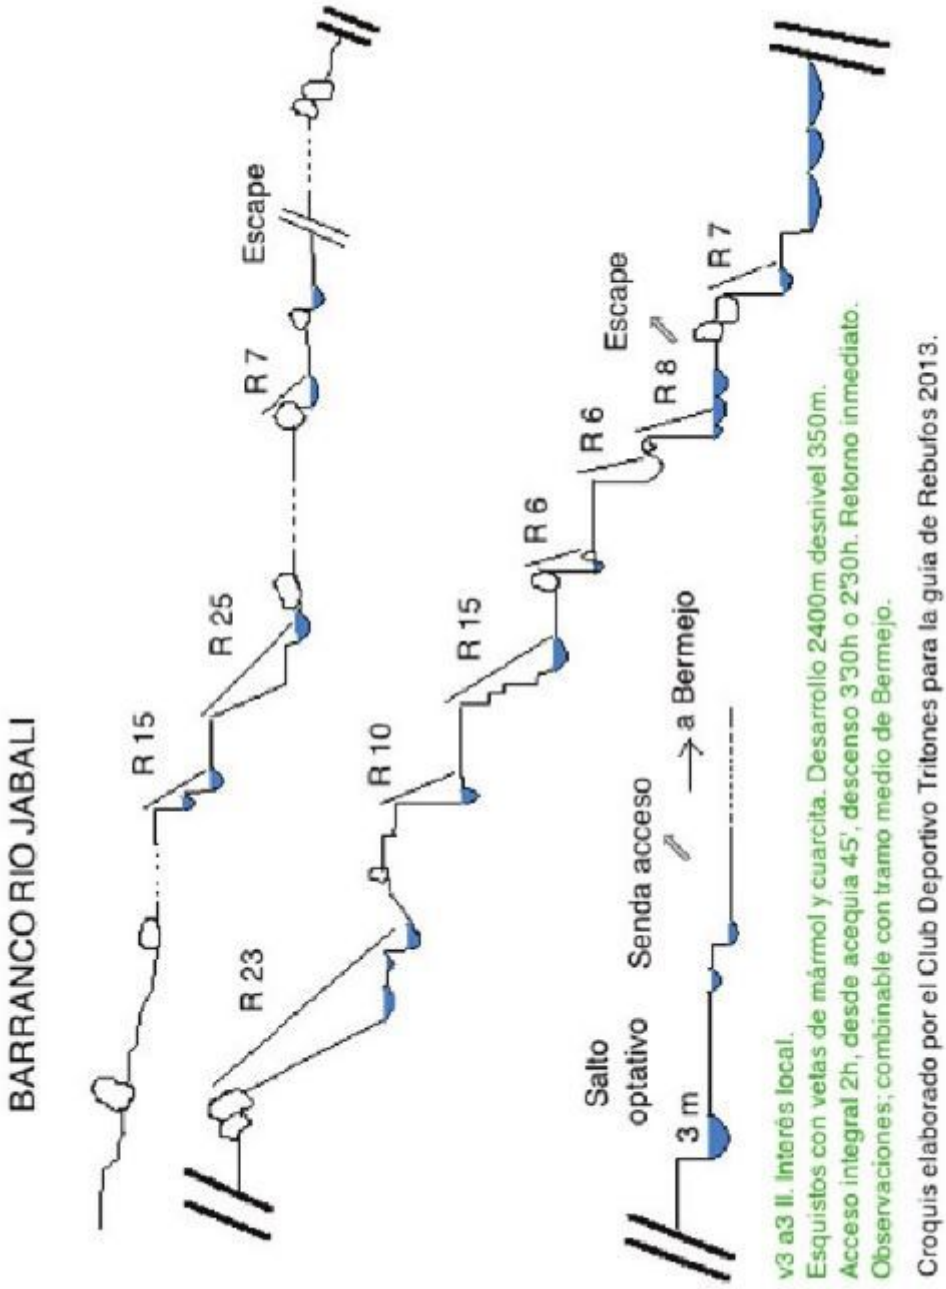

Coordinates:
Canyon Start 36.9705 -3.3115
Alternative Canyon Start 36.9625 -3.3214
Parking Entry and Exit 36.9560 -3.3256
