<b>Resumen:</b> (traducción alternativa) Alpine rappel canyon		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) From Nice through the Var valley to the north, then west and finally north again to the Gorge de Daluis (via the D 2202 towards Guillaumes). After the village of Daluis, the road rises sharply to cross the canyon Gorge de Daluis at 100 to 200 m above the Var wild and romantic. About 22 km after the upper canyon exit (we have passed through Guillaume u. St. Martin d'Entraunes) we come to Entraunes. Before the road bridge over the Var we turn left to a parking lot where we leave the car.		
<b>Acceso:</b> (traducción alternativa) We go south again on the road and after about 200 m we turn right on a little road (marker 256 - 1260 m a.s.l.). At marker 258 (past 257) we take the signposted path ("Clue du Chaudan, Col de Champs, Colmars" - GR 52a), cross a canal (our way back) and reach a viewpoint where (a little below) we can also have a look into the canyon. Continue until we reach the entry at the bridge over the stream (1470 m a.s.l.).		
<b>Recorrido:</b> (traducción alternativa) 9 rappels, the last in a chute through a rock face. The water is clean, but suspended particles are stirred up with your own step, making it cloudy. Therefore, check the water depth before slides and jumps.		
<b>Regreso:</b> (traducción alternativa) At the exit of the canyon (after rappelling in the chute through the rock wall) exit to the left and descend on clear tracks to the open channel, which we follow until we meet the access path. Descend on this and back to the car.
