Resumen: A short and easy route, but in places well-narrowed. Ideal for taking your first steps in canyoning or when water levels are high.		
Hidrología: Flow assessment: - if following approach on right bank, at exit stream crossing - if following approach on left bank, at entry		
Acceso: Park in the large square by the Monteviasco cable car.		
Acceso: From the cable car square, cross the bridge over the Viaschina stream and climb to the right towards Monteviasco, then immediately turn left towards Mulini di Piero. Upon reaching Mulini di Piero, there are two options: 1: stay high and find, at the end of the meadow, a trail that climbs steeply into the forest for about a hundred meters, then sharply turns left (a few cairns and occasional white marks). Upon reaching a more open area with meadow and birches, follow the trail continuing on level ground marked with red; it soon descends to the streambed near the first rapel on the map (50 minutes). Approx. 260 m D+. 2: stay low and follow the path along the Giona River until reaching the mouth of the Rassina stream. Cross the stream (assess the flow) and pass shortly after a mountain hut. The trail begins to climb, but after a few dozen meters, a faint path marked with red paint branches off to the right. This path enters the stream valley, follows the right bank upstream, and finally crosses the stream—this is the starting point of the descent (50 minutes). Entry coordinates: 46°04'43.3"N 8°49'42.5"E

Easy creek on a technical level. Little beaten path consequently in the approach follow the blue dots not to get lost. During the descent there were no logs that made the trail difficult. I found this creek delightful , a little gem. Suitable for those who are first experiences on their own . (traducción alternativa)
