| Especialidades: Presa (descarga autom.), | | | |
| Equipo: Cuerdas: 1x50m, 1x45m | | | |
| Resumen: (traducción alternativa) Attractive rappel canyon - beware! The AIC advises against climbing the lower part due to the water catchments. | | | |
| Hidrología: | | | |
| Acceso: (traducción alternativa) From Domodossola, head west into the Bogna Valley towards Bognanco. After about 7 km you pass a long bridge from which you can see the last cascades of the Variola. Here you park one car on a path that leads to an old bridge over the Variola. With the second car you continue for about 2 km until you reach the village of Bognanco di Fonti. Here you park at a bridge behind which a path turns off to the right in the direction of Monsignore/Monteossolano. | | | |
| Acceso: (traducción alternativa) Follow the hiking trail and soon cross the Rio Rasiga. You then reach the small hamlet of Monsignore. Cross it and continue right towards Monteossolano until you come to a beautiful old bridge over the Variola. This is the entry point. If you only have one car available, you can walk 400 m from the bridge at the exit on the road, then turn right at an acute angle and enter the village of Messasca. From here, a somewhat overgrown path leads uphill in a northerly direction. Follow this to the path coming from Bognanco and walk along it to the right to the old stone bridge. | | | |
| Recorrido: (traducción alternativa) After the first rappel under the bridge follows an entertaining descent, which culminates in a 35 m - chute with a long pool. Towards the exit some nice slides and jumps. Since Aug. 2010 the ascent of the Variola inferiore was forbidden, because in the course of a controlled water supply there was an accident with 2 deaths. Although an ascent is now allowed again (see above), the Variola superiore remains the most attractive alternative. | | | |
| Regreso: (traducción alternativa) Pass under the old and new road bridge and then in Torrente Bogna turn right (upstream) to the exit on the road. | | | |
| Coordenadas: Inicio del Cañón 46.1256 8.2247 Final del Cañón 46.1208 8.2264 Aparcamiento Entrada y Salida 46.1210 8.2257 | | | |

New chain for rappel guidé on the C35, at the bottom left a few meters after both stems. For rappel guidé, a 50-meter rope is required for guiding and at least 45 meters for rappel. On the C35, 30m ropes are probably sufficient for normal rappels (without rappel guidé) if the belayer on the edge is upgraded to a rappel anchor. Video of the tour: <https://www.youtube.com/watch?v=UhEjpc35Uc> (traducción alternativa)
