Resumen: (traducción alternativa) Short rappel canyon		
Hidrología:		
Acceso: (traducción alternativa) From Belluno on the SS 203 towards Agordo. After passing through the village of Mas (8 km from Belluno), continue north along the orographic left bank of the Torrente Cordevole. About 5.5 km after Mas you come to the houses of the hamlet of Casa Candaten, where there is also a camper van site and a picnic area to the west of the road. It is best to park your car a few hundred meters before reaching the houses of Candaten in a side path to the left of the road (dead end).		
Acceso: (traducción alternativa) Cross the Torrente Cordevole and head towards the opposite valley cut of the Valle delle Montarezze. Here you can follow the path along the stream and see the final waterfall (if you want). The ascent trail leads up the orographic right edge of the slope until a path overgrown with grass runs horizontally westwards to the entry point.		
Recorrido: (traducción alternativa) 6 rappels in direct succession without major walking passages. Worthwhile in view of the short approach time. As of May 2024, the stands are of varying quality. The Valle delle Montarezze is located in the Parco Nazionale Dolomiti; the ascent of canyons has so far been tolerated, but you should not risk an encounter with the rangers. The A.I.C. management has been negotiating with the national park administration for some time in this regard.		
Regreso: (traducción alternativa) After the last waterfall exit to the right, turn left over the footbridge and then through Torrente Cordevole back to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Montarezze Petit canyon sympa, très esthétique, a ne pas sous estimer. Attention,le sentier d'accès et de retour sans traverser le collecteur (impossible aujourd'hui) a été emporté par les crues du début de semaine, il est maintenant quasiment impossible d'y passer...
