<b>Resumen:</b> (traducción alternativa) Alpine canyon with some very technical passages.		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) From Locarno drive first ri. Maggia valley --> follow the road until the village Broglio --> directly at the end of the village there is a sign with the inscription Fusio 10km + bus stop Somprei where on the right a small road branches off --> drive down this road, cross the bridge --> further turn left and follow the gravel road past the stone houses until the next bridge at about 700Hm --> park here (exit).		
<b>Acceso:</b> (traducción alternativa) Climb up the already visible hiking trail next to the stream --> you can also take a shortcut and ascend directly --> after a short time you will come to a wooden bridge --> cross this --> follow the path uphill to the right until you reach a rock slide at approx. 1030 m above sea level. Enter the stream at this point.		
<b>Recorrido:</b> (traducción alternativa) Water oak canyon to mid-summer with some forced sections. The key point is the c45 right at the beginning of the parts of the gorge.		
<b>Regreso:</b> (traducción alternativa) As a rule, you take the inferior part with you, as this is very short. After reaching the bridge from which you checked the water level, get out of the stream. From there back to the car.
