<b>Resumen:</b> (traducción alternativa) Small scale but varied canyon		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) Take the SS 45 until Toscolano Maderno, then turn onto the road to Gaino. Go through Gaino and continue steadily uphill. The road becomes a dirt road. Follow the signs to the "Rifugio Pirlo". After about 5 km you come to a green metal bridge. Park your car there.		
<b>Acceso:</b> (traducción alternativa) Beyond the bridge, continue on the slope (also possible with a second car), keeping right at forks towards "Campei de Sima", until you reach the bridge over the Campiglio (info board, entry).		
<b>Recorrido:</b> (traducción alternativa) First river walk, but then nice rappel, caves, sintering.		
<b>Regreso:</b> (traducción alternativa) Either after the mouth of the Campiglio in the Torrente Toscolano right up to the slope and on this back to the car or - better - in the Toscolano downhill to the bridge. An exit on the water drainage is not advisable, because the channel - above and parallel to the Torrente Toscolano - is later led through long tunnels.

Very nice, and very very watery, at least for the conditions found today! Weapons all okay and in very good condition. If you also do the Toscolano it becomes an endless trip interspersed with 150m of swimming in a beautiful canyon For the current conditions I guess you can safely rate as the brother downstream Toscolano the difficulty of a3v3III) (traducción alternativa)
