Parked along the street between the small church and the quarry workshop towards the lake, approach in 10/15min to "ponte degli alpini" where the canyon starts. Many small pitches, generally very slippery, towards the end with the characteristic fall with the suspended pool which flows out through the broken rock wall like a hole in a pot, with anchor point very exposed out on the right. Wonderful view on Orta lake, once down swimmmed towards the left until overcoming the garden of the villa and its gate, after it climbing up on the road and back to the car.
