Good water level, also good grip for walking. However, there is a rappel where the stand has slid backwards and pulling off the rope is very difficult. At the big rappel there is a sharp edge after 15m, be sure to give rope, after one person the coat was already through with ours! (traducción alternativa)

Have set 4-5 new anchors. With the water level it gets pretty wild in the short parts below the road. (traducción alternativa)
