Resumen: (traducción alternativa) (Formerly a) wonderful slide and jumping canyon. Caution: At the exit of September 2020, the storm "Alex" triggered a mudslide that thundered through the entire canyon, causing a lot of destruction, especially in the grotto, and graveling up the rubber pits so that slides and jumps were no longer possible. Nothing has fundamentally changed since the exit in 2023. The canyon is accessible again, but has largely lost its special charm. The easiest way to read an update on the details is under "debts" at https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html . Here you can also find photos of ascents after "Alex".		
Hidrología:		
Acceso: (traducción alternativa) Above Breil-sur-Roya, follow the D2204 towards Sospel. After two hairpin bends, take a sharp right at some garbage cans and follow the mostly single-lane road to a large signposted parking lot.		
Acceso: (traducción alternativa) Follow the road briefly out of the valley and change to a sand road at the information sign. Follow the road until just before its exit and turn right at the signs onto a good path. Descend via many hairpin bends until a path branches off to the right just before reaching the streambed. Follow this path to the entry point at a large basin. You can also do the tour with just one car. Then park the car in La Giandola near the bridge and hike up the beautiful wall above the canyon - takes about 80 minutes.		
Recorrido: (traducción alternativa) Of the 20 or so places, you can slide and/or jump at least 15. It is better to go at inopportune times, as there are many groups (the first groups usually appear just after 9:00). At the key point, the rappel into the cave, you can climb up to the right and rappel through a hole or even at the exit of the canopy. Good overtaking possibility. About 100m later, there is an exit on the right up to the road. Two traverses are set up as via ferrata.		
Regreso: (traducción alternativa) After a nice 5m jump, a clear path leads off to the left, which you follow to the mule track above the canyon. Follow this out of the valley down into the village.

The upper part is currently forbidden. That's why you have to enter the canyon via Morghé, but it's worth it. Unfortunately, the Maglia has lost its beauty due to the Alex storm 5 years ago. However, it is still a worthwhile tour for "non-maglia connoisseurs". (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Maglia Enchaîné apres Morghé, le passage de la grotte est magnifique. We entered via the Morge Seiten Canyon and part of the group then walked to the official exit of the Maglia. Even though it's not as beautiful as it was before the storm a few years ago, the canyon is still worth a visit. The grotto was also nice (traducción alternativa)
