First descent 45 meters, required access to the main position, poor belay points. The other 2 descents good (the last position requires replacement of the handrail) (traducción alternativa)

Very short and unfortunately quite slippery during our ascent. A quicky if you want to do something quickly at the exit of the day. (traducción alternativa)

Very short gorge, hooks are in good condition perfect to combine with Rio Rivis. Climb track difficult to find but Gaia maps works well (traducción alternativa)
