

Nala (Inferiore)

Val d'Osogna inferiore, Nala inferiore

Crear: 2023-03-09 20:54:00	Actualizar: 2025-10-06 19:56:16	Imprimir: 2026-05-31 02:05:36
País: Schweiz / Switzerland Región: Kanton Tessin / Cantone Ticino Subregión: Bezirk Riviera Ciudad: Osogna		
Dificultad: difícil	Grado: v5 a4 III	Tiempo total: 3h10
Tiempo acceso: 35min	Tiempo tour: 2h30	Tiempo regreso: 5min
Altitud de entrada: 460m	Altitud de salida: 280m	Altitude delta: 180m
Longitud del cañón: 450m	Rapel más alto: 50m	Cantidad rapells: 11
Transporte: A pie	Tipo de roca: granite	Zona de entrada: 14.00km ²
Temporada: mayo - octubre	Orientación: Oeste	Mejor época: 10-16 Horas
Clasificación: ★ 4.4 (26)	Información: ★ 2.8 (16)	Belay: ★ 2.9 (24)
Advertencias: inactivo: <i>Evitar las molestias mediante el descenso masivo de barrancos (11.08.25 - 31.08.25)</i> Después de la RIC 2025 se han denunciado grandes grupos que causaban basura en los aparcamientos, ocupaban propiedades privadas, hacían fiestas ruidosas después de hacer barranquismo y aparcaban sin tener en cuenta el acceso de los habitantes locales. Las comunidades locales ya están enfadadas. Para evitar consecuencias negativas y regulaciones, por favor asegúrate de que actúas teniendo en cuenta el medio ambiente y las comunidades locales. Por favor utiliza todos los coches completamente para evitar congestiones en los aparcamientos, usa aparcamientos alternativos, se silencioso, restringe el uso del silbato en el barranco al mínimo, respeta la cultura católica local no desnudandote visiblemente y usa ropa para el ascenso. No salga de fiesta después de hacer barranquismo en los aparcamientos y retire la basura, por favor.		
Especialidades: Presa (informar al operador), Presa (descarga autom.),		
Equipo: Cuerdas: 2x60m		
Resumen: (traducción alternativa) Clean emerald green water; some sharp edges; twisty and narrow aquatic rappels; very nice grain in the granite rock; highly recommended canyon; stands often exposed; carry emergency gear, from 12h ideal sun exposure.		
Hidrología: (traducción alternativa) If necessary, water supply from the interconnected reservoir canal leading to the power plant (automatic opening of the sluice in case of problems in the canal or in the power plant, as in the case of the accident in 2001: https://www.nzz.ch/article7KF2C-ld.179745).		
Acceso: (traducción alternativa) From the freeway junction north of Bellinzona take the N2 towards Biasca. Passing through Claro and Cresciano we reach Osogna (11.4 km from the highway to the bridge over the Nala). After the bridge over the Nala, drive up to the cemetery and leave the car there.		
Acceso: (traducción alternativa) From the parking lot take the road above the cemetery to the right until the church (Santa Maria del Castello) --> behind the church a steep pilgrim path leads up next to the already visible canyon --> follow the steep path and pass the houses on the right (parallel to the canyon) --> after the last impassable steep part there is a slightly sloping path (sloping terrain) to the entry at about 460Hm.		

Recorrido: (traducción alternativa)

Arrived at the first pool at approx. 450Hm it starts immediately with the rappel in the water --> over a removable traversese rope one comes to the first rappel point of approx. 30m with a sharp edge --> after this point the canyon becomes immediately narrower --> 2 approx. 15m rappel points follow whereby the 2. The second one leads through a narrow chute (problematic with a lot of water) --> a 25m and 20m rappel into a big basin --> now the canyon opens --> here you have the possibility to get out on the right side (small swimming pools) --> via a removable traversese rope you reach the chain anchor --> from there you have a super view into the C50 narrow waterfall (big water pressure and small basin!!!) --> the next place is again narrow and unclear, the water shoots in zig zag 25m down into a small hollow (very nice) --> the canyon opens again and you could get out here re already --> there follows another slide or jump from up to 20m (however, the big pool is only on the right side deep enough --> the next places are unproblematic --- >finally you jump about 8m into the pool at about 280Hm.

Regreso: (traducción alternativa)

From the last basin at 280Hm it goes right the way into the place --> here immediately right back to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (inférieur) Équipement haut de gamme, à quelques exceptions près. C'est toujours une expérience inoubliable de faire cette superbe descente dans le Tessin. Un sanglier mort dans le canal de drainage du bassin devant la haute cascade, dans un état encore acceptable. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2676/observations.html>)

2025-10-06 | Christian Balla | 🌟🌟🌟🌟 |📖|📌|🌟🌟🌟 |🌊 Bajo | 🍏 Completado

Followed up with the helicopter and then climbed the middle and lower parts. Anchoring in the middle part is insufficient, in the lower part mostly excellent (with a few parts). Dead wild boar in the lower part. Approx. 6 hours in the canyon (both parts) with three of us, approx. 8 hours incl. reparking, flight, changing clothes. Sun in the lower parts. (traducción alternativa)

2025-10-04 | Ivan Rieder | 🌟🌟🌟🌟👉 |📖|🌟🌟🌟 |📌|🌟🌟🌟 |🌊 Normal | 🍏 Completado

Everything in perfect order. Very nice and worthwhile tour! (traducción alternativa)

2025-09-20 | Joey CIA | 🌟🌟🌟🌟 |📖|📌|🌟🌟🌟 |🌊 Normal | 🍏 Completado

It's all a mountain pass. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (inférieur) Fait l'intégrale, peu d'eau dans le sup mais vasques pleines, DC+ dans l'inter et l'inf. Magnifique. Beaucoup de monopoints... (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2676/observations.html>)

2025-09-04 | System User | |📖|📌|🌊 Normal | 🍏 Completado

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (inférieur) Equipment OK, DC+ I'd say. (you can descend through the water but it's intense, especially in the c50). We took the T15 close to the end. One was fine, but the other had quite the shock from the impact (dizzy, nausea, ...), to the extent that we couldn't continue to canyon and had to take the échap. So: in theory the T15 passes from up high, but hanging a rope for the first few meters significantly lowers the risk of stuff like this happening. Make your own risk assessment and be safe! Before this incident we had a great time, the canyon is stunningly beautiful. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2676/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (inférieur) Très bel encaissement qui se termine par un toboggan magique et un joli saut dans la vasque finale. Bien sonder ! Le saut passait dans l'écume dimanche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2676/observations.html>)
