<b>Resumen:</b> (traducción alternativa) Short forest canyon tour with 9 equipped abseiling points in a partly slippery environment.		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) By car to Pöckau, orographic left directly at the Kokra stream, the road goes up 350m to the meadow parking lot at the last house.		
<b>Acceso:</b> (traducción alternativa) The map only shows the old way up anyway. First 50m along the pipeline to the east, then steeply up the cart track via a few hairpin bends. Past the electricity pylon and up another step. Then the path leads horizontally roughly southwards over the Kokra into the valley. Either descend shortly before, using a hand rope down the steep forest to the stream 50m, or up to the boulder wall and then leisurely in.		
<b>Recorrido:</b> (traducción alternativa) From the boulder wall it is 250m to the first narrow section where you put on the neo. There are currently a total of 9 abseiling points. No waterfall is higher than 9m. You should only have 2x20m of rope with you, as the first double waterfall is rappelled in one. The watercourse has a good grip but is very slippery in places. At		
<b>Regreso:</b> (traducción alternativa) 2min to the boulder barrier, before that orographically left onto the hill and follow the path to the car, 5min.
