| Resumen: (traducción alternativa) Herbstbach with a heavily incised part (5 rappels). Not easy to have the conditions. | | |
| Hidrología: (traducción alternativa) Catchment area up to over 3000m high. Although it no longer has a glacier, it is fed by many springs, so the stream still has plenty of water even after a long time without rain. | | |
| Acceso: (traducción alternativa) Park at the parking lot just before the bridge at 1405m and then cycle up to Vanescha. From there it's another hour's walk. | | |
| Acceso: (traducción alternativa) First down to cross the stream and up to the hiking trail to Alp Suraua. Follow this path to Alp Scharboda. There you can choose how high you want to go, as the first rappels are all open. | | |
| Recorrido: (traducción alternativa) The top part is equipped with open waterfalls with rappels up to 45m. Then it suddenly goes into Spalt with a 15m rappel. This is followed by 3 more narrow steps, and the stream opens up again with an impressive 45m drop. From there, there are a few more open rappels. | | |
| Regreso: (traducción alternativa) Follow the stream until you are back at the bridge you took on the access. | | |

Now I'll give it a rating because the others aren't able to give half marks XD. Didn't have the best conditions, but 3 stars would be below the value of the canyon, 3.5 fits better. (traducción alternativa)

Very slippery in the water and otherwise quite icy (traducción alternativa)

Very slippery because of ice. Quite cold water. We were a group of only guides. Nice little section in the middle.
