Résumé: (traduction alternative)

Nice ravine that rushes over Gavilanes, overshadowed by his older brother, is an open but very continuous ravine, with good views and great development.

It is not obligatory but it is advisable the combination of cars to remove us more than one hour of ascent.

Hydrologie: (traduction alternative)

Possible in almost all the route, if we leave from the left we would go down the access "path" without combination.

Accès: (traduction alternative)

We will have to place ourselves in the beautiful village of Gavilanes, in the south face of Gredos.

We will look for the bullring, located in the upper part of the village and we will leave by the track that is behind and that takes us to the bridge at the end of section II of Gavilanes. Here we will park the car to return.

We will continue along the track zigzagging uphill to the top, the area of Jarillas where we will park the access car.

Approche: (traduction alternative)

By the path that takes us to the beginning of section II, we will cross the river and continue along the slope opposite, we will go up the left orographic following the remains of trails that lead us almost to the area of Jarillas, when the rise softens we enter the riverbed.

With combination of cars the access is immediate and direct to the stream.

Tour: (traduction alternative)

Open, with great views and, like Gavilanes, very continuous.

Retour: (traduction alternative)

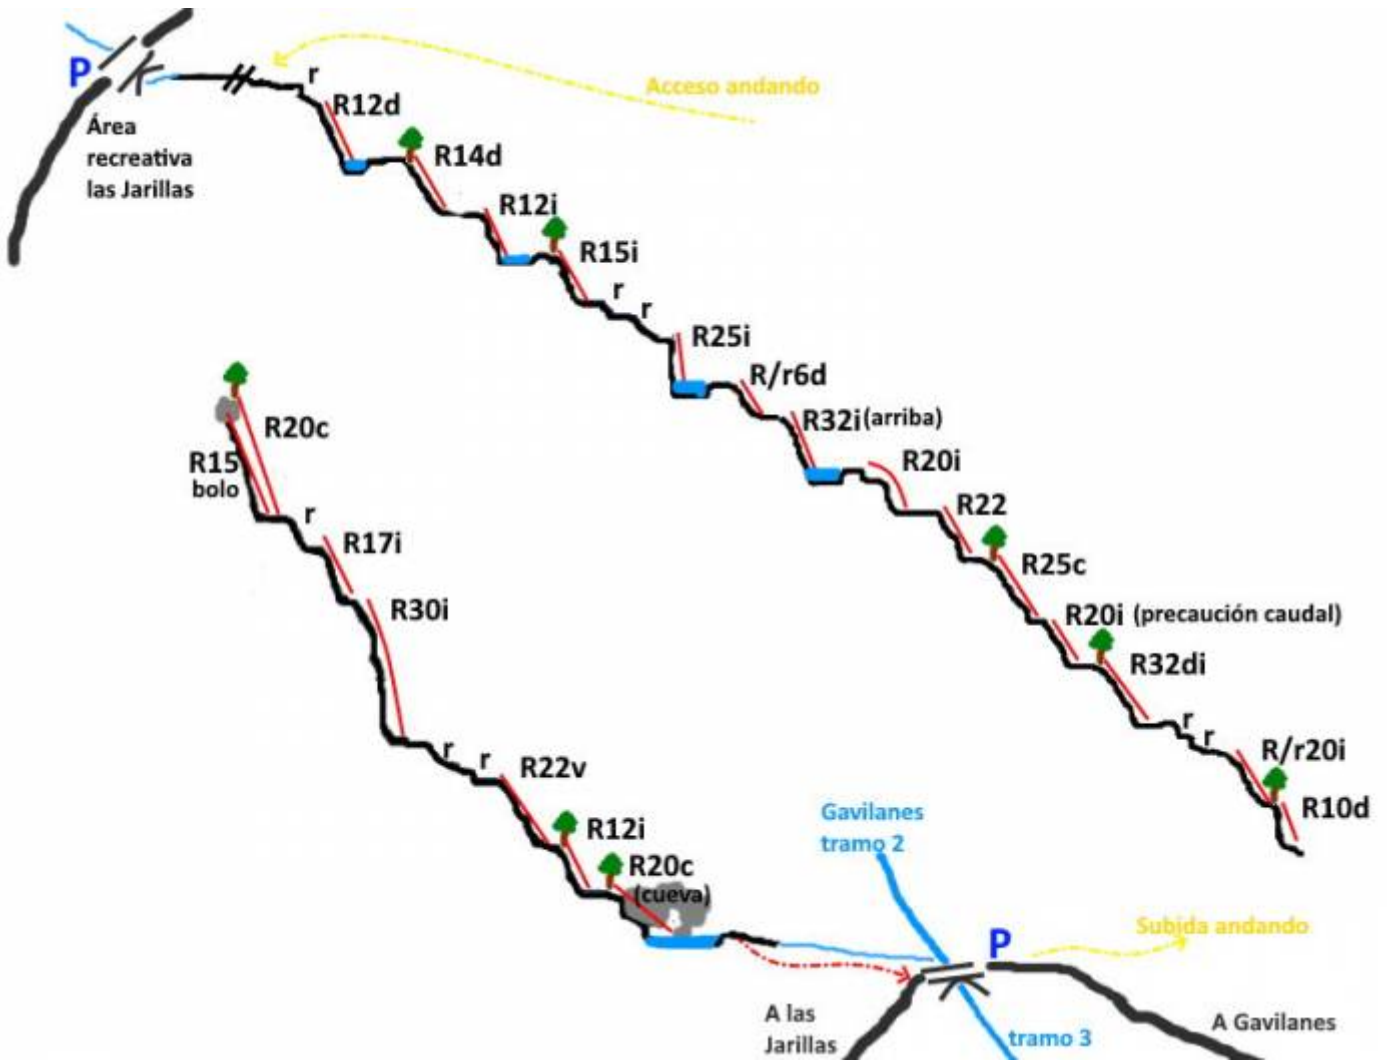

After the last rappel we can go to the orographic right up to the track.
