| Résumé: (traduction alternative) Forest canyon with attractive gorge towards exit | | |
| Hydrologie: | | |
| Accès: (traduction alternative) From the eastern shore of Lake Como, take the SS 38 towards Sondrio. After 4.5 km you reach the big traffic circle in Delebio, where you turn south into Via Giovanni Conti. Follow this road for 550 m and then turn left into Via Giuseppe Verdi. Follow this road until the exit and turn left at the washing trough in front of the bridge over the Lesina. | | |
| Approche: (traduction alternative) We follow Via Cristoforo Colombo westward, past the electric plant and then climb up the steep road on the left to reach a concrete water basin at the top (about 35 min. to get here). Keeping left in front of the basin we come to a canal, which we follow. We have to overcome a barrier and come through a small tunnel. After this we go on clear tracks and further following the blue-white markings down into the streambed. | | |
| Tour: (traduction alternative) For more than two thirds of its length, the Torrente Lesina presents itself as a not particularly attractive forest canyon, even though smaller jumps and slides are already possible here. Then, however, an attractive gorge begins, which offers as a highlight a vertical slide of 14 m length. | | |
| Retour: (traduction alternative) After passing the slide brake, continue along the streambed for a short distance and at the road bridge over the Lesina on the left side of the stream you will reach the road with the parked vehicle again. | | |
