Résumé: (traduction alternative) Vertical canyon, large, spectacular in its development with two large waterfalls that will delight lovers of large vertical. It has a second part after the road that we do not consider that it contributes much. Necessary to communicate the descent https://montanaregulada.org/area/barranco-de-ajoque		
Hydrologie: No		
Accès: (traduction alternative) Location of Ajoque, Marrubio, Torre and Baranda bcos. On the road to Buenavista del Norte, with the return car we will continue towards the lighthouse / Punta de Teno on the TF445. At the p.k. 2,5 there is a deposit to the left of the road and a place to park, it is the control point of the access to the lighthouse. From here there is a PR to the Risco. Here we leave the return vehicle. With the access vehicle we return to Buenavista, we leave by the road to El Palmar TF436, just past El Palmar we take the detour to the right to Teno Alto. We will go to Teno where we will turn right onto the track La Mulata, we will continue along it until a fork that on the left is followed by the road La Mulata, we will go to the end where we park.		
Approche: (traduction alternative) Accesses bcos Ajoque, Marrubio, Torre and Baranda We continued by the, now already, track that turns to the north and to the 250m we found a bifurcation that we took to the right, about 100m later we threw ourselves to the left, now already cross-country with the dry bed of our ravine to the right, we will go descending cross-country until the bed and then we will follow it until the first vertical one		
Tour:		
Retour: (traduction alternative) We will reach the road and take it to the right, 1km later we will arrive at the parking area.
