Résumé: (traduction alternative) Attractive rappel canyon with fun potential		
Hydrologie:		
Accès: (traduction alternative) From Karpenisi in a south-westerly direction to Prousos (31 km). From here continue in a southerly direction. Turn right off the main road to Thermos/Lampiri, continue straight on towards Kastania and descend to the bridge at the exit of the Mavri Spilia canyon. Continue past the village of Tornos to Kastania. Here we continue - now on a dirt road - in the direction of Prodomos. After 4.5 km we descend to the bridge over the Platanaki. Now we head up to Prodomos, through the scattered houses and on towards Grana. Before reaching the houses of Grana, we turn left at a sharp angle onto the road that branches off to Roska. From here, a 4WD vehicle is indicated. We park one car up in Roska by the church and the second down by the bridge over the Krikelopotamos river. If you only have one car available, you can walk the 4.2 km from the bridge over the Krikelopotamos river up to Roska on the dirt road. Alternatively, you can look for the entry at the bridge. In this case, you are limited to the particularly attractive final section of the canyon.		
Approche: (traduction alternative) From the parking lot at the church, we walk down the road for about 50m. We find a sign pointing the way to Kato Vrisi, a spring. We follow it, continue past the spring and come to a small stone bridge. We take the path here.		
Tour: (traduction alternative) At the beginning and over almost 2/3 of the descent, smaller steps - all under 10m high - some of which can also be jumped. Many exit options, including onto 2 traversing paths. The water flow increases. A section with higher rappels then begins. The steepness then subsides and we reach the mouth of the Krikelopotamos river and thus the exit of the descent.		
Retour: (traduction alternative) Upstream in Krikelopotamos (check the water flow rate at the parking lot by the bridge!) We pass the Schleier Falls "Πανταβρέχyi/Pantavrehi" (panta vrehi = everything is raining) and arrive at the bridge and our car for the exit after almost 3/4 hours.

Automatisch importiert von Descente-Canyon.com für Canyon Roska Easy descent with not clear water, some nice jumps and slides are possible, but some have hidden boulders, be careful. There are some beautiful springs on the walls along the hike out on the main river. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21469/observations.html>)
