Résumé: (traduction alternative) Short rappel canyon down into the Pieve valley		
Hydrologie:		
Accès: (traduction alternative) From Riva del Garda on the SS240, past Lake Ledro and through Storo, we reach the Fiume Pieve after a total of around 35 km, cross it and meet the SS237 on the other bank, which we follow to the NNE. After another 13 km or so, we come to the village of Argro and negotiate a striking double hairpin bend. Immediately afterwards, we turn right at the houses on the right-hand side of the road onto a smaller road. About 150m further on, the road bends to the right in front of a house with a fish farm before crossing the Fiume Pieve a few meters further on in a left-hand bend. In this left-hand bend, we park the car in a suitable place for the exit (exit parking lot). Continue for 1km in the second car; then turn right. The road now leads uphill through the forest. 800m after this turn-off, at the exit of a left-hand serpentine, a dirt road turns off to the right - in a southerly direction. We leave our second car here (parking lot for access).		
Approche: (traduction alternative) On foot, we first follow the field path to two houses, pass them and continue walking in the same direction. We come across "our" stream and follow it downstream without a path. Shortly after passing under a power line, the terrain drops steeply and we reach the entry point.		
Tour: (traduction alternative) Several longer rappels (6 in total) down to the Pieve valley.		
Retour: (traduction alternative) Once in the valley, we take the dirt road to the right at a bridge and reach the road and the car after a few meters.
