Résumé: (traduction alternative) Magnificent, deeply incised gorge with gigantic granite boulders. After two rappels over huge boulders into a rock basin follows a washed out, deep and narrow gorge. After several slides and jumps the gorge ends much too early directly at the parking exit. Partly much but clean water. Call the power station operator (before and after the tour) (0041 (0)91 756 66 15). Attention. The water level is extremely difficult to estimate in this canyon.		
Hydrologie:		
Accès: (traduction alternative) From Locarno --> ri. Biasca --> continue ri. Lucomagno --> park at Ponte Lesgiuna before the big bridge on the right at the place name sign 'Valle di Blenio' (380Hm) water level from the second small stone bridge difficult to estimate --> better check at the entry.		
Approche: (traduction alternative) Immediately to the right next to the small bridge a steep hiking trail goes into the forest --> after an iron gate it continues steeply uphill to about 518Hm --> here to the left (Steinmandl) --> along the hiking trail it goes up again --> to the left of the path large rock slab --> after a short time you come out of the forest and you have a beautiful view into the canyon. From here (danger sign) it goes down shortly to the creek (rope belay on the right in the steep terrain possible) --> entry at 480Hm.		
Tour: (traduction alternative) Arrived at the stream you can already see the impressive granite boulders that you do not often get to see --> here comes a 20m rappel (overhanging) --> the downclimb you could also downclimb right --> next comes a 42m rappel, in the overhang with sharp edges below the boulder (very impressive) --> the next rappel or. Slides are to be enjoyed with caution (current and backflow danger) --> after the big clamping block (gigantic) are still some pools in very narrow canyon part --> by clear water, however, you always have a good view to estimate the places --> at the end you come from vertically towering rock walls in a flat wide stream gravel bed with the 2 bridges.		
Retour: (traduction alternative) After both bridges go up on the left to the parking lot.

Waterlevels back to normal. We replaced a fixed saftyline with a new rope. Photo shows water level on the big drop.

High water today! Dangerous in a lot of places. Only go with a good team, perfect (recent) knowledge of the canyon, a drill and floating bags. If you're not really confident in high water, it's better to turn around.
