Access path is rather steep but obvious, a bit overgrown and short (start by the green handrail, up to a water tank or what, than follow the pipeline). Takes 20-25 minutes. The big one needs careful logistics: 2m + 6m + 32m + 50m, all on the right. The two later ones are free-hanging, but at least out of water. Not as slippery as it seems.

Low water level. All stands in good condition. Access at the stairs with green handrail from the road. (traduction alternative)

Beautiful and super short abseil gorge with a view of the sea. All stands okay. At the bottom again a clapping crowd on the road. :) (traduction alternative)

Nice, very short tour to explore the north of the island in the afternoon. (traduction alternative)

A very short canyon with a beautiful, breathtaking waterfall with a fascinating view. There are two waterfalls in the Agua Alto canyon. The upper waterfall is still cut in, the C90 open with a view of the Atlantic. The second cascade, about 90 meters high, ends right next to the road (VE2, São Vicente - Porto Moniz) and flows into the Atlantic Ocean. The 90-metre waterfall is accessed in several intermediate stages. (traduction alternative)
