Résumé: (traduction alternative) Raw data import from Ropewiki https://ropewiki.com/Turbewasser Sunny but quite unsteady canyon, which has a nice part in schist at the beginning. Further down some open abseils in marble, and exits with gneiss just before reaching the Binna River. (machine translated)		
Hydrologie:		
Accès: (traduction alternative) Drive in the Binntal up to the driving ban.		
Approche: (traduction alternative) The best way to get into the valley is by e-bike. And then only tackle the length of the canyon on foot.		
Tour: (traduction alternative) Unspectacular at the beginning, then a short passage halfway cut in and nicely polished. At the end, no longer black but white rock with a few higher open rappels.		
Retour: (traduction alternative) The same as when you go there.
