Automatisch importiert von Descente-Canyon.com für Canyon Croaescio Some anchors are weirdly placed. MC 20 at the c55 is kinda tricky. You have to climb up a very slippery rock that tilts towards the waterfall. Difficult to go back up if you slide in (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22742/observations.html>)

Nice flow, anchor placement wasn't optimal

Nice canyon, I'll probably go back next time to defuse a few MC spots with the drill and check out a few more possible jumps, now it had too much water to say for sure (just from the bridge at the beginning) (traduction alternative)

Great canyon, but unfortunately I don't know any more details. (traduction alternative)
