<b>Spécialités:</b>		
<b>Matériel:</b> Cordes: 2x60m		
<b>Résumé:</b> (traduction alternative) Alpine canyon that changes again and again. First very narrow and small steps, then a large open rappel, then a run with individual sections, and finally another incised passage with 10m rappels.		
<b>Hydrologie:</b> (traduction alternative) Only feasible at the exit of summer or beginning of fall, water level is never deep as it always seeps in through the scree.		
<b>Accès:</b> (traduction alternative) Park at the Crêta d'Asse 1738m.		
<b>Approche:</b> (traduction alternative) All on the hiking trail, partly along the Bisse de Tsittoret.		
<b>Tour:</b> (traduction alternative) Description on swestcanyon  Large rappel : Start rappel right 6m. Then pull over to the left for 20m Then 40m to the right again (do not go into the small hole where water is shredded through) 55m to finish.		
<b>Retour:</b> (traduction alternative) Back to the bite, and then the same as for access.		
<b>Coordonnées:</b> Départ du Canyon <a href="#">46.3659 7.5291</a>		
<b>Rapports:</b>		
2025-10-14   Jeanne Picart   ★★★★★   📖★★★★   🗣️★   🌊 Normale   🍏 Terminé Not really slippery like previous comment. All anchors ok but only one anchor per pitch even in the big one.		
2025-09-18   Bubtore   ★★★★★   📖★★★★   🗣️★★   🌊 Haut   🍏 Terminé Very slippery at the moment, otherwise a canyon worth seeing. When it's not narrow, you have a beautiful view of the 4000-meter peaks of the Alps opposite. (traduction alternative)
