Résumé: (traduction alternative) Large and deep canyon with access via an easy via ferrata. Beautiful beginning, then unfortunately only more hiking tour.		
Hydrologie:		
Accès: (traduction alternative) Freeway A23 to exit Pontebba then on the SS13 briefly direction Pontebba. After crossing the Fella and the Rio degli Ucelli, turn right under the highway. Follow this road until you reach a large parking area next to the gravel bed of the Rio degli Ucelli.		
Approche: (traduction alternative) From the parking lot head SW into the forest on a cross-country path, through a gate and between two weekend houses onto a road. At the next crossroads keep right and after the last house turn right onto path 521. Follow the path until it reaches the streambed of Rio degli Ucelli after long crossings, some of which are secured. Not all exposed passages are secured - do not walk in wet conditions.

2023-04-01 Horst Lambauer ★ 📖 ★★ 📍 🚧 🌊 Normale 👍 Terminé The approach is not for the faint of heart. Partly it is well secured but every now and then you are in the middle of the fall terrain without insurance. Due to various landslides, finding the way is also not easy. (traduction alternative)
