Pays: España / Spain Région: Aragón Sous-région: Huesca Ville: Rodellar		
Difficulté: moins difficile	Niveau: v1 a3 III	Temps total: 4h5
Temps approche: 1h30	Temps tour: 2h30	Temps de retour: 5min
Altitude d'entrée: 690m	Altitude de sortie: 630m	Altitude du delta: 60m
Longueur du canyon: 2500m	Rapelle le plus haut: 0m	Nombre de rappelles: 0
Transport: à pied	Type de roche:	Zone de prise d'eau: km ²
Saison:	Orientation: Sud-Est	Meilleur moment:
Évaluation: ★ 2.4 (4)	Info: ★ 3 (2)	Belay: ★ 3 (1)
Spécialités:		
Matériel: Cordes: ggf. Notseil		
Résumé: (traduction alternative) Aquatic hiking and swim canyon in scenic wall, good for kids.		
Hydrologie:		
Accès: (traduction alternative) On the N-240 from Lleida or on the A-138 from France through debn tunnel from Bielsa via Ainsa to Barbastro. On the ring road around the city and continue on the N-240 towards Huesca. About 22 km after Barbastro we turn right on the A-1229. Via Abiego and Bierge (turn left after Abiego) we arrive at Rodellar (about 30 km from the turnoff from the N-240). \If we have 2 cars available, one can be parked at the "Camping El Puente" at Alcanadre (about 600 m before Rodellar the tarred road steeply down to the left (signpost).		
Approche: (traduction alternative) In Rodellar, follow the signs to Barranco Mascun. We come down to the stream, cross it and come to the source on the right. Continuing northward, we now go up the Bco Fornocal de Andrebot on the left. We come out of the bushes and stand on an open plateau, right the haptic trail continues towards Nazarre and entry Gorgas Negras. We take the weaker tracks to the left, crossing the flat crest and hiking beyond down towards Alcanadre. You reach the river at the southeastern exit of a grassy plain with some poplars. Although the Barrasil begins a little further upstream, the descent usually starts here. To do this, you walk from the campsite "El Puente" at the Puente Pedruel along the trail in the direction of Rodellar. At the beginning it walks on the orographic left slope high above the riverbed of the Alcanadre, but then it descends at the old stone bridge "Puente Coda" to the Mascun. We cross the Punte Coda and follow the faint path that, after a few switchbacks to the high ground, later leads us continuously to the northwest. Finding the way may require some intuition and sense of direction. We then meet the approach path described above and follow it downhill to the left to the river.		
Tour: (traduction alternative) We start walking on the shore and crossing the river several times. We then come to a mess that is crossed most interesting in the run of the water line. However, if the water flow is (too) strong, you can keep to the right bank, if it is also problematic here, you can bypass the chaos right at the top of the slope. Next highlight is "La Olleta" a deep and deep green jumping pool. Do not pass inattentively on the left (happened to me on my first ascent). At the exit come the long swim sections, where for a change but also always jump possibilities from the - mostly right - side are opened.		

Retour: (traduction alternative)

If we have a car at the campsite "El Puente" stand or have marched from there, we tend after the last long swim and the opening of the canyon right out and go path to the "Puente Pedruel at the campsite.

If we have only 1 car and it is at the top of Rodellar, we can also go to the campsite and from there on the tarred road to Rodellar (possibly car stop).

We can also walk from the campsite to Rodellar along the hiking trail already mentioned.

An interesting alternative is to swim into the narrow and easily overlooked mouth of the Mascun ("Ultimos Estrechos") before the exit of the last swim, then upstream in the Mascun and get off at the Punte Coda to the right onto the footpath to Rodellar, or to hike all the way up the Mascun and climb to the meadows below the rocks where Rodellar is located. From there, turn right up to Rodellar.

Automatisch importiert von Descente-Canyon.com für Canyon Barrasil Marche d'approche toujours aussi compliquée mais bien indiquée. Compter presque 2h à 5 depuis Rodellar.Descente très agréable, un peu technique au début mais canyon magnifique ponctué de rencontres avec des adeptes de l'escalade hors norme ! Sinon 3h avec un groupe de 5 dont 4 débutants. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2785/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Barrasil Approche en 1h45/2h Débit sympa pour une première descente de ce canyon mais prudence dans le chaos Paysage magnifique (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2785/observations.html>)

2025-05-30 | System User | |📖|📌|🌊 Normale | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Barrasil Gros débit dans le chaos du début avec les siphons annoncés on est plutôt passés par la voie aérienne entre les gros blocs dès le moindre doute. Ensuite canyon large et ensoleillé, paysages très jolis Pas besoin de corde mais du coup pas mal de marche dans l'eau. Marche d'approche compter plutôt 2h et partir tôt car le soleil cogne ..Très peu de groupes (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2785/observations.html>)

2025-05-30 | Rok | ⭐⭐ |📖⭐⭐⭐|📌⭐⭐⭐|🌊 Haut | 🟢 Terminé

Everything ok. Afterwards from Gorgas Negras. Swim, downclimb and walk. (traduction alternative)

2025-05-21 | System User | |📖|📌|🌊 Normale | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Barrasil Debit correct dans l'ensemble du canyon. Gros débit dans le chaos à esquiver sur la droite sans soucis (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2785/observations.html>)

2025-05-03 | System User | |📖|📌|🌊 Normale | 🟢 Terminé

Automatisch importiert von Descente-Canyon.com für Canyon Barrasil Gros débit dans le chaos uniquement (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2785/observations.html>)

2025-04-23 | Peter Lampacher | ⭐⭐⭐ |📖⭐⭐⭐|📌|🌊 Haut | 🟢 Terminé

Hiking canyon. Works as well as ever. (traduction alternative)
