<b>Attrezzatura:</b> Corde: 1 x 30m, 2 x 50m		
<b>Sintesi:</b> (traduzione alternativa) Eastern arm of the well-known waterfalls, probably only carries water after rain / when the snow melts, a good, short addition to the western arm.		
<b>Idrologia:</b> (traduzione alternativa) The water level under the road bridge does not match the water level in the high cascade, at the exit of the canyon a powerful spring pours into the stream.		
<b>Accesso:</b> (traduzione alternativa) Simply navigate to the "Cascade de Morette" (google maps), the small parking lot next to the garbage containers opposite the small restaurant is perfect (see GPS parking lot).		
<b>Avvicinamento:</b> (traduzione alternativa) 15 minutes Opposite, a path leads up through the forest. Just follow this for a good 10 minutes. The path then approaches a small forest stream. You can get dressed at the point where the path is closest to this stream. Then walk back down a good 15 meters and head down through the forest towards the edge of the drop-off (approx. 1 minute). The first anchor is an orange-colored rope sling around a large tree on the right bank.		
<b>Giro:</b> (traduzione alternativa) 60 minutes From here it goes 15 meters forward, be careful, extreme danger of falling rocks due to a lot of loose debris! The belay is also on the right, slightly next to the waterline on a comfortable ledge (2 single pitons with ring). From here it is a free-hanging 45 meters into the depths. You land on a small, perfectly fitting platform. I recommend 50m ropes, as it is easier to pull off from further out. Under the roof of the shallow cave is a piton with a chain link, which is connected by a rope to other anchors in the cave (not easy to see). From here C18, then right 2 single pitons with ring, C30. In the route you actually only move without a rope to pull off the ropes at C45. An emergency exit after the high waterfall: a rope ladder leads down in front of the stable.		
<b>Ritorno:</b> (traduzione alternativa) 2 minutes At the foot of the last rappel, a faintly recognizable path on the left bank leads back to the road (1 minute), then left to the car (1 minute).
