Accesso: (traduzione alternativa) From Dorgali, head south on the SS 125. Shortly after leaving Dorgali, turn left through a tunnel in the direction of Cala Gonone. At the traffic circle at the beginning of Cala Gonone, turn right at the signpost for Spiaggia - Caletta Fuili. After 850m on this road (Via Laconi Renzo), turn right again onto Viale Bue Marino and continue for approx. 2.5 km to the exit above the bay above Codula Fuili. Park one car here. Take the second car back and drive up towards the tunnel. 1.3 km after the large traffic circle, turn left (signposted 'Agriturismo Nuraghe Mannu') and drive south on the concrete road. At the top, past the agriturismo, you can see the canyon below on the left. 4.2 km after turning off the main road, we see a building on the right and park the second car somewhere here. If you are worried about orientation problems, you can continue along the track until it crosses the generally dry streambed and then get in here.		
Avvicinamento: (traduzione alternativa) From the car through the sparse forest in the direction of SE down pathless into the dry gravel bed of the stream.		
Giro: (traduzione alternativa) At the beginning and at the exit each longer hiking route; in between nice narrow section.		
Ritorno: (traduzione alternativa) Once you reach the sea, left up to the road.

Very disappointing the supposedly rewarding middle part are exactly 2 abseils where you are through within less than 15 minutes which is really not much for a canyon of about 2 hours. Before and after that there are really long walking passages, it is a beautiful scenic area but nothing extraordinary that would make it really worthwhile. The stand where you come out is unfortunately not a lonely stand that you can only reach through the canyon but a really touristy stand where you have to be happy if you can still find a way through between the towels on the ground in the early afternoon. The only thing that would possibly make the canyon really worthwhile would be if, instead of using canyoning equipment, you would use a climbing harness and climbing rope and also put on a few express slings and a belay device so that you can climb the drilled climbing routes in the canyon. Not worthwhile as a canyon in itself, but can be used as an "interesting beach access" to the Spaggia di Cala Fuili. Good chain anchors, sometimes several per abseil. Unfortunately, there is never a direct view of the sea when rappelling... After the last rappel, it's another 1/2 hour walk to the beach. (traduzione alternativa)
