Great canyon. At the beginning some ice on the rocks, after a short time no more. at the high wall the intermediate stand after the 55m is relatively far left out of the water. At the C40 +C40 you can rappel on the left in the dry - belays are available. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Aua dil Mer Le début de la marche d'approche dans la forêt défoncé! 1h45 jusqu'au départ du 2è tronçon. Débit correct a 11h puis c'est monté. Ras dans le tronçon 2. Attention dans la C40 au début du tronçon 3, une fissure située 4m sous le relais coince le matériel. Avons remis la plaquette qui n'était plus là 20m plus bas. Grande cascade magnifique, C30 rg puis C70 rg d'un coup jusqu'à 1 terrasse (pas vu de frac à -55...) Ensuite ajout d'un point en rg. Dans l'enchaînement suivant, on ne s'est pas engagé dans la première C40, gros mouvement d'eau dans la vasque suspendue, pas pied, siphon en sortie de vasque, drossage à droite! Descente au sec rive gauche sur le monopoint pour tomber direct sur la chaîne du 40m suivant. Puis échap rive droite. Water level good All anchors OK An additional anchor could be placed at the very bottom on the opposite side to make it easier to pull off the last rope length. (traduzione alternativa)
