Stagione:	Orientamento: Sud-Est	Tempo migliore:
Valutazione: ★ 3.7 (5)	Info: ★ 2 (2)	Belay: ★ 3 (3)
Specialità:		
Attrezzatura:		
Sintesi: (traduzione alternativa) The upper part is not very rewarding. It is very slippery. The grotto under the bridge (primary access) is a very beautiful part of the canyon. The tour is described below via entry via the Valle di Nota (from Aer).		
Idrologia:		
Accesso: (traduzione alternativa) From Riva del Garda on the northern shore of Lake Garda on the "Gardesana Occidentale" - SS 45 approx. 23.5 km southwards, where the road to Tignale (SP 38) branches off at an acute angle. Follow this road uphill for 2.8 km until the road crosses the "Vione" (the stream is actually called Rio Sernifa) in a sharp right-hand bend. Park the lower car at the bridge. Take the other car uphill for another 4.2 km until the road to Gardola branches off to the left. Go through Gordola and at the northern end of the village turn left onto Via Panoramica towards Aer (571 m above sea level), pass this village on the right until you reach the exit of the tarred road. Park the second vehicle here.		
Avvicinamento: (traduzione alternativa) We continue on a forest path (compass hiking trail no. 251). This leads us downhill and crosses a stream (Rio Nota) after about 800 m - entry. You can also descend a little earlier on footpaths to the stream as soon as you see it. (00h 20')		
Giro: (traduzione alternativa) Via this orographic left side stream, after a few small steps, you reach the Vione superiore. Elsewhere (e.g. in "Gole und Canyons") an access from the orographic right side directly into the Rio Sernifa (Vione) is described. Shortly after the confluence of the Rio Nota (with several small slides and jumps) and the Rio Sernifa, you will come to an approx. 9 m long bumpy slide. Immediately afterwards, you can climb back up to the upper parking lot on a path to the left. The 8 m rappel that follows should only be jumped if the depth of the pool is sufficient (check!). The lower part of the Vione (from the road bridge) down to Lake Garda is a pure rappel canyon (16 rappels, max. 45 m, partly exposed access, approx. 3 hours) with unfortunately contaminated water, which can be a risk, especially if there is insufficient flow in midsummer. Access is currently (2012) prohibited. In the meantime, the municipality of Tignalega has issued a comprehensive access regulation for the Vione, the main content of which is the payment of a fee (2012: 2 euros) at the tourist office (ufficio del turismo) in Tignalega. (03h 30		
Ritorno: (traduzione alternativa) Immediately out onto the road bridge.

Alke anchors in order. The first jump (approx. 12m) is not possible, but otherwise everything works with a bit of leg pulling. (traduzione alternativa)
